Report on NC Pandemic Recovery Office Operations and Activities

Overview of the Office

In May 2020, Governor Cooper established the NC Pandemic Recovery Office (NCPRO) to oversee and coordinate the fiscal response to the COVID-19 pandemic. NCPRO is responsible for overseeing the distribution of the \$3.6 billion in Coronavirus Relief Funds (CRF) from the U.S. Treasury to provide support to state agencies, local governments, nonprofits, hospitals, educational institutions, and research organizations. NCPRO established a system for distributing, tracking, auditing, and providing guidance to more than 2,000 recipients of the funds provided by CRF.

In addition to CRF, NCPRO is responsible for the oversight, administration, and federal reporting for seven additional COVID-19 recovery programs: (1) the Governors Emergency Education Relief (GEER) program, (2) Emergency Rental Assistance (ERA), (3) Homeowners Assistance Fund (HAF), (4) Economic Development Administration Tourism Grant Funds, (5) Economic Development Administration Strategy Funds, (6) Capital Projects Fund, and (7) American Rescue Plan Act State Fiscal Recovery Funds (SFRF). NCPRO is responsible for providing technical guidance and support to all county and municipal governments that received funds from the American Rescue Plan Act Local Fiscal Recovery Funds (LFRF), and funds for the 525 municipalities that are flowing through the State.

North Carolina received \$222.7 million in GEER funds from the CARES Act and CRSSA Act, which come to the State from the U.S. Department of Education. The Governor is responsible for awarding funds to education entities under GEER I and GEER II programs (totaling \$137.8 million); federal law allocates the remaining \$84.8 million to the Emergency Assistance for Non-public Schools program, which is administered by NCDPI, with NCPRO providing oversight and federal reporting. GEER funds must be expended by December 31, 2023 (GEER 1 by December 2022 and GEER 2 by December 2023). Reporting and oversight activities are required through the first quarter of 2024, and federal audits of GEER funds will continue through the end of 2025.

The Emergency Rental Assistance (ERA) program assists households that are unable to pay rent and utilities due to the COVID-19 pandemic with \$979 million in federal funds awarded to the State of North Carolina through the Consolidated Appropriations Act of 2021 and the American Rescue Plan Act (ARPA). The U.S. Treasury allocated an additional \$280 million directly to 18 local governments, and \$24.4 million was provided to five tribal governments in North Carolina for the ERA Program. NCPRO is responsible for the oversight, administration, and federal reporting for the state's allocation of the ERA funds. Additionally, NCPRO is working with the local and tribal governments to coordinate programs and is providing technical assistance where needed.

North Carolina received \$273.3 million for the Housing Assistance Fund (HAF) through ARPA to provide financial assistance to homeowners experiencing hardship due to the COVID-19 pandemic. Funds from this program may be used to prevent homeowner delinquencies, defaults, foreclosures, and other homeowner-related expenses. NCPRO is responsible for the oversight, administration, and federal reporting for the state's allocation of HAF funds.

The State of North Carolina received \$5.4 billion in American Rescue Act State Fiscal Recovery Funds (SFRF), and local governments in North Carolina directly received \$2.7 billion in Local Fiscal Recovery Funds (LFRF). North Carolina received the remaining \$352,692,103.50 of the \$705 million to distribute to

520 municipalities in accordance with U.S. Treasury rules and guidance after distributing \$342,638,945.92 of the LFRF to 521 of the 525 municipalities in 2021. In addition, NCPRO hosted webinars in collaboration with the Local Pandemic Recovery Stakeholder Group — to provide guidance to local governments regarding the use of ARPA funds. NCPRO also participated in several panel discussions with the UNC School of Government (SOG) “Basics of ARPA” course for local governments during the month of October 2021. NCPRO is partnering with the SOG to host learning communities to discuss the federal and state requirements since March 2022. We are also partnering with the NC League of Municipalities and the NC Regional Council of Governments to host four (4) ARP Expert Tours, located in Hickory, Greensboro, Rocky Mount, and Wallace NC, during the months September and October. We continue to host bi-weekly Interagency meetings for our state agencies and monthly meetings with the Local Pandemic Recovery Stakeholder Group to discuss federal and state requirements. We partnered with Management Concepts to host a two-day training for over sixty (60) state agency representatives, titled “Monitoring Federal Grants for Pass-Through Entities”. Lastly, during November 2022, NCPRO contracted with Deloitte Development, LLC to develop performance measures framework, create a technical assistance toolkit to support administering agencies, and develop dashboards to support the tracking of ARPA funding, project performance and outcomes.

Staffing, Funding and Responsibilities of NC Pandemic Recovery Office

The North Carolina Pandemic Recovery Office is organizationally located in the Office of State Budget and Management. The office hired its first staff in May 2020 and added most staff within the first three months of operation to complete its primary duties:

- Develop the systems, processes, and procedures to efficiently disburse the federal recovery dollars as appropriated,
- Disburse federal funds in a timely manner to assist recipients in responding to the pandemic,
- Monitor changing US Treasury guidance,
- Provide technical assistance to recipients and assist in program development design,
- Meet federal and state reporting requirements,
- Identify the impacts of the COVID-19 pandemic on North Carolina’s people, communities, and businesses,
- Address gaps in recovery funding for underserved people, places, and businesses, and
- Audit the recipients of federal dollars to ensure compliance with federal and state laws.

All the positions within the office are time-limited, temporary, or contract-based (I.e., employees who have been temporarily reassigned from state agencies). Because the office was established in May 2020, it has operated remotely from its inception, and it continues to operate in a hybrid remote and in-person environment in accordance with guidance from DHHS and OSHR.

Additional positions have been added as noted in table 1 as NCPRO has been tasked with administering additional federal funds, and auditing and federal reporting requirements have increased in frequency and volume.

Activities of NC Pandemic Recovery Office During the 2020 Calendar Year

During the 2020 calendar year, NCPRO was focused on administration, oversight, disbursement, and reporting for the state’s \$3.6 billion in Coronavirus Relief Funds (CRF), as well as identifying the impacts of the pandemic on North Carolina’s people, communities, and businesses. The first round of the Governor’s Emergency Education Relief Fund (GEER) was included in the CARES Act, and NCPRO was involved in determining how to best allocate those funds and in developing oversight, administration, and reporting functions for the GEER program. Because the CRF dollars were set to expire on December 30, 2020, NCPRO also worked with CRF recipients to reallocate funds to make sure they were used before the deadline. When President Trump signed the Consolidated Appropriations Act into law on December 27, 2020, which extended the CRF expenditure deadline, NCPRO shifted its focus to making sure CRF recipients understood the new deadline and guidance from the U.S. Treasury. In addition, the Consolidated Appropriations Act included funds for the Emergency Rental Assistance (ERA) program.

Activities of NC Pandemic Recovery Office During the 2021 Calendar Year

During the 2021 calendar year, NCPRO was focused on learning the federal requirements of the American Rescue Plan Act (ARPA) and the funds that were provided to states and local governments for pandemic recovery – State Fiscal Recovery Funds, Local Fiscal Recovery Funds, additional Emergency Rental Assistance Funds, Homeowners Assistance Funds, Capital Projects Funds, Economic Development Administration Tourism and Strategy funds, and State Small Business Credit Initiative funds (managed by NC Department of Commerce). NCPRO improved grants management, reporting, and data management functions and processes to better manage these additional funds and to support local governments and state agency partners. Lastly, NCPRO worked to get state agencies and subrecipients to use the rest of their Coronavirus Relief Funds for the December 31, 2021, expenditure deadline. NCPRO also worked to distribute the first tranche of Local Fiscal Recovery Funds to the 525 local governments that US Treasury designated as Non-Entitlement Units of Government (NEUs). NCPRO and our partners – UNC School of Government, the Councils of Government, the NC League of Municipalities, and the NC Association of County Commissioners – provided extensive assistance and guidance to local governments so that they

could receive and use these funds. NCPRO also completed reporting requirements for federal funds and worked to set up MOUs and grant agreements for the new funds the state received.

Activities of NC Pandemic Recovery Office During the 2022 Calendar Year

During the 2022 calendar year, NCPRO was focused on making sure that the State consistently applied the evolving federal reporting and compliance guidance for State Fiscal Recovery Funds (SFRF), Emergency Rental Assistance (ERA), Homeowners Assistance Funds (HAF), Capital Projects Funds (CPF) and EDA funds. NCPRO finalized our development of the PANGRAM software system used to manage the federal grants and monitored the grant subawards for all the federal funds that the office manages. NCPRO also disbursed the second tranche of Local Fiscal Recovery Funds totaling \$343,200,465.07 to the 520 local governments that accepted their funds and submitted the reports to US Treasury. The office also partnered with Deloitte to develop performance measures for all SFRF projects and worked with agencies and subrecipients to begin collecting those measures. NCPRO worked to close out Coronavirus Relief Funds (CRF) and respond to UST questions and final reporting. Lastly, NCPRO worked to share information on the use of all federal pandemic funding on our website and through media stories and reports.

Activities of NC Pandemic Recovery Office During the 2023 Calendar Year

During the 2023 calendar year, NCPRO continued work with compliance, technical assistance, reporting and guidance for State Fiscal Recovery Funds (SFRF), Emergency Rental Assistance (ERA), Governor’s Emergency Education Relief (GEER), Emergency Assistance for Non-Public Schools (EANS), Homeowners Assistance Funds (HAF), Capital Projects Funds (CPF) and Economic Development Administration (EDA) funds. The office continued the development and collection of performance measures for SFRF using a process developed by Deloitte. All grants were entered into the PANGRAM software system used to manage the federal grants and monitor the grant subawards for all the federal funds that the office manages; PANGRAM was also reconfigured with the implementation of the NC Financial System from the NC Accounting System. NCPRO staff continued working with partners, including the NC Association of County Commissioners, the NC League of Municipalities, the Councils of Government, and the UNC School of Government, to assist local governments in their implementation of State and Local Fiscal Recovery Funds and to assist them with federal reporting. NCPRO led the state’s response to a 4-month long desk review of Coronavirus Relief Funds (CRF) conducted by federally contracted auditors. NCPRO completed nearly 70 reports for federal and state entities on the use of the federal funds. Lastly, NCPRO worked to share information on the use of all federal pandemic funding on our website and through media stories and reports.
